CHRISTIAN PAUL PERLADA

JUNIOR DEVELOPER

E : christianp.perlada@gmail.com   **P :** +639605044538   **G :** https://github.com/ampolperlada

OBJECTIVE

"Motivated and detail-oriented junior developer with a strong foundation in web development and a passion for creating dynamic user experiences. Eager to contribute to a team as a React.js Intern, leveraging my skills in HTML, CSS, JavaScript, and React.js to build responsive web applications while learning from experienced developers."

EDUCATION

Captain Albert Aguilar National High School Las Piñas Highschool

Southville International School Las Pinas Senior High / 1st-2nd year Associate Degree Holder Graduated in Southville (ASAT) Under the management of SISC

Saint Bernadette College of Alabang Alabang 3rd Year College - 4th Year ***Currently***

TECHNICAL SKILLS

Languages:
Html, CSS, Javascript, MySql, C#, Java, WordPress, Bootstrap

Developer Tools:
VS Code, Visual Studio, Eclipse, Github

Frameworks:
React, Node.js

WORK EXPERIENCE

○ **INTERN**
(Technical Support) at Southville International School and Colleges

Assist in the installation and configuration of hardware components such as computers, servers, printers, and networking equipment. Collaborate with end-users to understand software requirements and customize installations accordingly.

PROJECTS

Developed a responsive personal portfolio website using React.js to showcase my projects, skills, and experiences to potential employers. The website features a dynamic contact form that utilizes the Web3Forms API to send messages directly to my email.

Created an inventory management system with a c# database utilizing Visual Studio and XAMPP.

Working on modifications to an existing software system that manages each component of the library's operations using Php, Html, CSS, and Sql.

Developed a graphical user interface (GUI) application for registering and managing employee information using c# (Visual Studio)

Created a Bank System in C# designing and implementing a software application to simulate the functionality of a basic banking system.

INTERESTS

Video Games

Coding
